REALTIME PROJECTS

Tic-Tac-Toe (12/2023 - 12/2023)
- Implemented the classic game using Java, focusing on clean code and efficient design. The user-friendly interface and flawless game logic make it an enjoyable experience for players. Sharpened my Java skills and problem-solving abilities throughout the process

Zomato Website (11/2023 - 11/2023)
- I've created a Zomato website using HTML and CSS, seamlessly blending aesthetics and functionality. The project showcases a user-friendly interface for exploring and ordering from a variety of restaurants, employing a clean design with responsive elements for an optimal browsing experience.

SKILLS

Core java : Proficient in Core Java with expertise in OOP concepts, data structures, multithreading, collections, and Solid understanding of exception handling and application of SOLID principles

HTML/CSS : Experience in implementing responsive design principles using HTML/CSS , ensuring seamless user experiences across various devices and screen size

Hands-on experience in MS Office, including Excel and effective presentations

Basic Python proficiency with knowledge of syntax, variables, and basic data structures. Familiarity with fundamental programming concepts and problem-solving using Python.

ACHIEVEMENTS

Medha Event (prove your Talent..!) (04/2022 - 04/2022)
I successfully participated in the Medha event, a knowledge-testing challenge that allowed me to showcase my intellectual capabilities.

CERTIFICATES

Full Stack Web Development from Tap Academy
 (08/2023 - 01/2024)

Python conducted by the Spoken Tutorial project, IIT Bombay (04/2022 - 06/2022)
